

# NAFISA TABASSUM SRABONI

---

## PROFESSIONAL SUMMARY

Software Engineering learner with hands-on experience in React.js, Node.js, Firebase, JavaScript, REST API integration, Git, and GitHub. Experienced in building modern web applications and working on real-world projects and full-stack web applications. Passionate about problem solving, frontend development, backend integration, and learning modern software engineering practices. Eager to contribute to a collaborative development team while continuously improving technical and professional skills.

---

## EDUCATION

Bachelor of Science, CSE, 09/2022 - Current  
**Varendra University** - Bangladesh

---

## PROJECT WEBSITES & PROBLEM SOLVING

### 1. Book Shop Project

**Live Website:** <https://book-shop-project.sraboni.dev/>

**Description:** A modern book shop web application project built using React.js, Node.js, and Firebase. The project was converted from an older HTML, CSS, PHP, and SQL-based system into a modern full-stack web application structure. It includes frontend development, backend integration planning, Firebase setup, GitHub version control, and Cloudflare hosting.

### 2. VibeSpace

**GitHub Repository:** <https://github.com/nafisasraboni/VibeSpace>

**Description:** VibeSpace is a Netflix-style movie and TV discovery app built with React, Vite, Express, MongoDB, and the TMDB API. It includes user authentication, protected browsing, trending content, category browsing, trailers, search, and search history.

### 3. Problem Solving Practice

**GitHub Repository:**  
[https://github.com/nafisasraboni/LeetCode\\_Problems\\_JS](https://github.com/nafisasraboni/LeetCode_Problems_JS)

**Description:** A JavaScript-based problem-solving practice repository focused on LeetCode challenges, data structures, algorithms, binary search, debugging, and time complexity improvement.

## CONTACT

**Address:** Bohorompur, Rajshahi, Rajshahi, Bangladesh, GPO-6000

## SKILLS

- HTML5
  - CSS3
  - JavaScript
  - React.js
  - Node.js
  - Firebase
  - REST API Integration
  - Git
  - GitHub
  - Responsive Web Design
  - Frontend Development
  - Backend Development
  - JSON
  - Database Fundamentals
  - Problem Solving
  - Debugging
  - Team Collaboration
  - Cloudflare Deployment
-
